By Alfred Mason Amadon : The Fold-Out Book of the Human Body: Classic 1906 Edition (A Bonanza pop-up book) ever notice how christopher nolans movies interstellar inception the prestige feel like an anxiety attack well maybe thats overstating things a bit but The Fold-Out Book of the Human Body: Classic 1906 Edition (A Bonanza pop-up book):

2 of 2 review helpful First form of paper engineering Wonderful resource By Randall Laue The first book was taking

so long for delivery I ordered it again Was surprised that it came with a different cover sheet Was pleasantly surprised This book was my first contact with pop up books and their history It s a must for all paper engineers CLASSIC 1 of 1 review helpful Our ins See the marvels of the human body This amazing book displays the organs and systems of human anatomy in full color layered paper art Originally published in 1906 this is a unique period piece perfect for any medical professional or anyone else interested in our our bodies function Movable layers show how each part of the body interacts with the others including bull Heart and circulatory system bull Brain bull Skeletal system bull Stomach
