11 of 11 review helpful The Nose Knows the Nose By A Customer I had heard about this book in a variety of places a review here a radio show there Like the reader from Waltham I was curious and dubious But I picked up the book the other day and read And read and read Like Glaser smells have affected my life powerfully I recall an occasion at a friend s house where I caught of whiff of the soap my grandmother Each year Americans spend billions of dollars on their noses From over the counter sinus remedies to cosmetic surgery aromatherapy to Chanel no 5 we are a nation immersed in all things nasal But how did this one vital organ become an object of beauty a status symbol the basis for judging character What led to the invention of cotton tissues Why do we follow our noses when seeking a mate or choosing a president The Nose is a fascinating tour of it Glaser draws a thousand scents into a highly readable narrative that s a breath of fresh air About the Author Gabrielle Glaser is the author of Strangers to the Tribe and The Nose and a journalist
