1 of 4 review helpful Needs a lot of work By A Customer Grant s Dissector leaves much to be desired The dissection instructions are not all that clear nor are the drawings that great It seems to skip around a lot with the dissection It also mentions a lot of structures to look for which aren t in the drawings I would recommend the authors reconsider their layout I would also consider looking at other dissectors if This 11th edition has been reorganized to separate the clinical notes and details from the dissection instructions A brief introduction precedes each structure s dissecting instructions and blank observation boxes are provided for insertion of notes Line drawings and radiographs are included
