By Douglas J. Gould PhD, Jennifer K. Brueckner-Collins PhD : Sidman's Neuroanatomy: A Programmed Learning Tool (Point (Lippincott Williams & Wilkins)) Sidman's Neuroanatomy: A Programmed Learning Tool (Point (Lippincott Williams & Wilkins)):

0 of 0 review helpful Super helpful I never would have thought I would By FS Super helpful I never would have

thought I would be a programmed learning type but the vastness of neuroanatomy makes this kind of tool really helpful and I have found it to be super helpful It was recommended to me by fellow MD and PA students My one piece of advice is to get this book before your neuro anatomy courses start and start Sidman s Neuroanatomy A Programmed Learning Tool Second Edition is an innovative combined neuroanatomy text and review that covers the structure of the entire nervous system Its unique programmed learning approach allows students to easily retain information and learn at their own pace by slowly building on previously learned concepts throughout each chapter The programmed learning approach introduces new information and reviews previously learne
