1 of 1 review helpful Very Good By Adriano Ferreira da Silva This trading occurred without any problems Although
this book presents almost all the figures known from the past editions there are more information topics in Physiology

and Embryology making this atlas like a textbook I like it a lot Sobotta Atlas of Human Anatomy with online access to e sobotta com the exam atlas for understanding learning and training anatomy The English language Sobotta Atlas with Latin nomenclature is specifically adapted to the needs of preclinical medical students Right from the start the book and the Internet content concentrate on exam relevant knowledge The new study concept simplifies learning understanding training Descriptive legends help the stu
