3 of 3 review helpful Highly recommend By ryclost6 SUCH a big hit My 6 year old loves this series so much that he is not only explaining the science to everyone he meets but he s re creating the Bone comic book series as Cells complete with germ creatures instead of rat creatures etc The information is a good balance of interesting and detailed but not over complicated and the graphics are bright Beneath your skin there is an amazing hidden world of living cells Millions and millions of cells work together to make everything that is you But did you know that you started life as just one tiny cell And did you know that everything that lives on Planet Earth is also made of these amazing cells Enjoy Your Cells is a series of children s books from the acclaimed creative partnership of scientist author Fran Balkwill and illustrator Mic Rolph Onc The illustrations in Enjoy Your Cells are fantastic this is no boring biology textbook Rolph s illustrations are rich and many have entertaining text bubbles The book is jam packed with

information for both kids and parents I m a biologist and I l
