18 of 18 review helpful Peek behind a professional TCM healer By Guy Sedan I am in the last year of my 4 year TCM School I found this book to be very helpful in clearly illustrating in color pictures simple explanations and clear diagrams what I other books talk about only theoretically The book is organized by dedicating a chapter for each Zhang organ In each case a very clear color picture of the tongue is This second volume of Atlas of Chinese Tongue

Diagnosis works seamlessly with the first to facilitate the connection between the theory of tongue diagnosis and the reality of practice in the clinic As in the first volume the case histories and related photographs are organized around the various disharmonies of the organs Here however the tongue signs are evaluated in the broader context of the other symptoms and clinical findings including the vitality and const About the Author Barbara Kirschbaum received her Bachelor of Acupuncture at the International College of Oriental Medicine England in 1980 where she taught for seven years and has pursued additional studies at various TCM hospitals in China over the past two
