was not laminated it says when I look closely that there are both laminated and non laminated versions I don't recall any question about which I prefer though that may have been my oversight When I took it out of the box it had several pretty significant creases in it All in all I ended up in This useful chart of The Endocrine System shows the location of glands on the body Each gland is separately illustrated and labeled and the hormones it secretes are listed Shows the following glands thyroid parathyroid thymus adrenal pineal pituitary Also includes the organs that have a secondary endocrine function producing and releasing hormones The heart kidney stomach duodenum jejunum
