By William R. Hess, Peter G. Howell, Daniel W. Verwoerd : African Swine Fever Virus: Bluetongue Virus (Virology Monographs Die Virusforschung in Einzeldarstellungen) African Swine Fever Virus: Bluetongue Virus (Virology Monographs Die Virusforschung in Einzeldarstellungen):

Bluetongue may be described as an acute insect borne disease of ruminants manifested clinically in sheep by a catarrhal inflammation of the mucous membranes of the digestive and respiratory systems and associated with degenerative changes in the skeletal musculature. The profound emaciation and weakness which follow the acute disease are responsible for a protracted convalescence and for serious economic losses due to diminished productivity.

II Historical During
